

Bio-MAT™

Reduce Odour Problems
& Blockages in Urinals

This Product Is...

Technical Information

This innovative design incorporates the best available biological dosing of urinal drains combined with a perfume mat adaption which delivers the best environmentally sustainable solution that also provides the maximum waste reduction.

Features and Benefits

- Will work effectively in ALL wall hung urinals
- Assists in preventing blocked traps and pipes
- Supports water saving urinal configurations
- Contains odour neutralising perfume
- Assists in waste reduction
- Reusable, Refillable
- Safer to use

The Bio-Mat is a unique innovation that uses the best available biological urinal blocks which have been specially formulated to reduce odour problems and blockages in urinals.

New strains of bacteria have been introduced to the biological and enzymatic cleaning efficacy to remove fats, uric-scale and solids that build up in urinal traps and pipe-work causing odours and blockages.

The perfume mat and block adaption will deliver the very best value providing a lower cost structure and dramatically reduce waste outcome.

This solution delivers substantial savings on both washroom maintenance and water bills as the need for constant flushing and improves the cleaning regime.

Packaging

- Sealed unit
- Packs of 10
- Value Pack of 5
- Value Pack Bio Starter

Storage

- When not in use keep closed in the original container. Keep out of reach of children. DO NOT store or expose to excessive heat.

How to Get the Best Value – refill & reuse

- The block holder fits into the perfume mat
- Replace the block when down to 10%
- Replace the mat once discoloured

Bio-MAT™

Reduce Odour Problems and Blockages in Urinals

How to use the product

Where this solution is used, do not clean using disinfectant, acid or alkaline cleaners. This device is suitable for ALL wall hung urinals. They should not be used in stainless troughs as masking mats and the biological dosing is not as effective as BioSCREEN block holders

- WALL Manual Flush: place over the waste drain opening
- WALL Sensor Flush: place over the waste drain opening
- WALL Waterless: place over the waste drain opening
- The block holder fits into the perfume mat
- Replace the block when down to 10%
- Replace the mat once discoloured

How to Get the Best Value - refill & reuse

Waterless Urinals

- Caroma H2Zero, Britex
- Uridan, Ifo
- Urimat
- Water Free, Falcon
- Koehler
- Ideal to have a bio block dosing option Advantage to have canister dosed with bacteria when used by patrons. Will assist in degrading organic waste in the canister
- Some makes may provide to place open block discreetly

Wall Mounted Urinals

- Use in all makes
- Manually & timer flushed ok
- Sensor high volume flush efficacy not as great
- 88Gm bio block could last up to 1 month depends on use

Case Study

Shopping Centre Victoria:

Biological cleaning regime in place

- 13 wall hung Caroma, sensor flush
- Bio-Mat placed in each urinal
- After 3 months, 1 block refill and mat changed due to discolouration after using blue block on light green mat, blue on blue could extend the life another month
- No pipe blockages
- No odour issues
- Potential exists to dramatically reduce flush water
